## Personal Growth Opportunities at White Horse Thrift Store

At the White Horse Thrift Store, we work with individuals in recovery who wish to seek employment, as a steppingstone to reach their goals. They use skills such as mathematics, daily cleaning, communications, organizing, proper phone use, decision making and punctuality among others while working or volunteering in the Thrift store. We are excited to work with and support individuals as they persevere and stay strong in their daily lives. Taking a huge step into the employment atmosphere which surrounds each of us with obstacles and limits, we see them evolve into a positive new lifestyle.
